INDEPENDENT AUDITORS' REPORT

To the Mayor and City Council Members City of Ness City, Kansas Ness City, Kansas 67560

We have audited the accompanying financial statements of the City of Ness City, Kansas, as of and for the year ended December 31, 2007, as listed in the table of contents. These financial statements are the responsibility of the City of Ness City, Kansas' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the <u>Kansas Municipal Audit Guide</u>. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described more fully in Note 1, the City of Ness City, Kansas has prepared these financial statements using accounting practices prescribed or permitted by the State of Kansas, which practices differ from accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the **City of Ness City, Kansas**, as of December 31, 2007, or changes in financial position for the year then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash balances of each fund of the **City of Ness City, Kansas**, as of December 31, 2007, their respective cash receipts and disbursements, and budgetary results for the year then ended, on the basis of accounting described in Note 1.

Notes to Financial Statements December 31, 2007

1. Summary of Significant Accounting Policies

The City of Ness City, Kansas has established a uniform system of accounting maintained to reflect compliance with the applicable laws of the State of Kansas. The accompanying financial statements are presented to conform to the statutory basis and budget laws of the State of Kansas, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The following is a summary of such significant policies:

A. Financial Reporting Entity

The **City of Ness City, Kansas**, was incorporated in 1878, under the provisions of the State of Kansas. The governing body consists of an elected mayor and five elected council members. The City provides the following services: public safety (police and fire), streets, culture and recreation, public improvements, sanitation, water and electric utilities and general administrative services. Other services include support for library services and tourism.

The City receives funding from local, state, and federal governmental sources and must comply with the requirements of these funding sources.

The City of Ness City, Kansas is the primary government as defined in GASB #14 and further amended by GASB #39. The City Council is elected by the public. The Council has the authority to make decisions, levy taxes, influence operations and has the primary accountability in fiscal matters.

The following is a component unit of the City of Ness City, Kansas. The City exercises significant influence or accountability based primarily on operational or financial relationships with the City (as distinct from legal relationships).

Ness City Public Library

The Ness City Public Library is organized under Kansas Statutes for the purpose of operating a public library for the benefit of the **City of Ness City**. The Board's members are appointed by the City Council. The City substantially funds the Board's operations by levying tax dollars for the Library. The Board does not issue audited financial statements. Contact the City Clerk for information on how to obtain this financial information.

B. Basis of Presentation - Fund Accounting

The accounts of the City are organized and operated on the basis of funds. In governmental accounting, a fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

The following categories of funds comprise the financial activities of the **City of Ness City, Kansas** for the year ended December 31, 2007:

Governmental Funds

<u>General Fund</u> – reports as the primary fund of the City. The fund is used to account for all financial resources not reported in other funds.

Notes to Financial Statements December 31, 2007

B. Basis of Presentation - Fund Accounting (cont.)

Governmental Funds

<u>Special Revenue Funds</u> - to account for the proceeds of specific revenue sources (other than special assessments or major capital projects) that are restricted by law or administrative action to expenditure for specified purposes.

<u>Debt Service Funds</u> - to account for the accumulation of resources for and the payment of interest and principal on general long-term debt and the financing of special assessments which are general obligations of the City.

<u>Capital Project Funds</u> - to account for financial resources segregated for the acquisition of major capital facilities (other than those financed by Enterprise Funds).

Proprietary Fund

<u>Enterprise Funds</u> - to account for operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where periodic determination of revenues earned, expenses incurred, and/or net income is deemed appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Statutory Basis of Accounting

The statutory basis of accounting, as used in the preparation of these statutory basis financial statements, is designed to demonstrate compliance with the statutory basis and budget laws of the State of Kansas. Cash receipts are recognized when the cash balance of a fund is increased. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods and services, and are usually evidenced by a purchase order or written contract. For an interfund transaction, a cash receipt is recorded in the fund receiving cash from another fund, and an expenditure would be charged in the fund from which the transfer is made.

The City has approved a resolution that is in compliance with K.S.A. 75-1120a(c), waiving the requirement for application of generally accepted accounting principles and allowing the City to use the statutory basis of accounting.

D. Departure from Generally Accepted Accounting Principles in the United States of America

The basis of accounting described above results in a financial statement presentation which shows cash receipts, cash disbursements, cash and unencumbered cash balances, and expenditures compared to budget. Balance sheets that would have shown noncash assets such as receivables, inventories and prepaid expenses, liabilities such as deferred revenue and matured principal and interest payable, and reservations of fund balance are not presented. Under accounting principles generally accepted in the United States of America, encumbrances are only recognized as a reservation of fund balance; encumbrances outstanding at year end do not constitute expenditures or liabilities. Consequently, the expenditures as reported do not present the cost of goods and services received during the year in accordance with generally accepted accounting principles. General capital assets that account for the land, buildings, and equipment owned by the City are not presented in the financial statements. Also, general long-term debt such as general obligation bonds, temporary notes, and compensated absences are not presented in the financial statements.

Notes to Financial Statements December 31, 2007

E. Accounting for Capital Assets and Depreciation

The City does not maintain a record of capital assets used in performance of general government operations and the proprietary funds as required by generally accepted accounting principles.

F. Accounting for Long-Term Liabilities

The accounting and reporting treatment applied to the long-term liabilities associated with a fund are determined by its measurement focus. All governmental funds and fiduciary funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Long-term liabilities expected to be financed from governmental funds are not accounted for in the governmental funds.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

G. Budgets

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), debt service funds, and enterprise funds. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

- 1. Preparation of the budget for the succeeding calendar year on or before August 1st.
- 2. Publication in local newspaper on or before August 5th of the proposed budget and notice of hearing on the budget.
- 3. Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
- 4. Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time. There were no budget amendments this year.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

Notes to Financial Statements
December 31, 2007

G. Budgets (cont.)

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations (legal budget expenditure authority) lapse at year-end.

A legal operating budget is not required for capital project funds and the following special revenue funds:

Capital Improvements and Equipment Reserve

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

H. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation is utilized in the governmental funds.

I. Deposits and Investments

The City follows the practice of pooling cash and investments of all funds. Each fund's portion of total cash and investments is summarized by fund category in the Summary of Cash Receipts, Cash Disbursements and Unencumbered Cash.

As of December 31, 2007, the City had no investments.

K.S.A. 9-1401 establishes the depositories which may be used by the City. The statute requires banks eligible to hold the City's funds have a main or branch bank in the county in which the City is located or in an adjoining county if such institution has been designated as an official depository, and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The City has no other policies that would further limit interest rate risk.

K.S.A. 12-1675 limits the City's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U.S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The City has no investment policy that would further limit its investment choices.

Concentration of credit risk. State statutes place no limit on the amount the City may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

Custodial credit risk – deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require the City's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. The City did not use "peak periods" during 2007. All deposits were legally secured at December 31, 2007.

-24-

Notes to Financial Statements December 31, 2007

I. Deposits and Investments (cont.)

At December 31, 2007, the City's carrying amount of deposits was \$1,581,927 and the bank balance was \$1,634,326. The bank balance was held by one bank resulting in a concentration of credit risk. Of the bank balance, \$100,000 was covered by federal depository insurance and \$1,534,326 was collateralized with securities held by the pledging financial institutions' agents in the City's name.

J. Capital Projects

At year end, capital project authorizations with approved change orders compared with expenditures from inception are as follows:

•	Project	Project	Unexpended
Project Name	Authorization	Expenditures	Authorization_
	\$ 2,735,481	159.847	2,575,634
Airnort Improvements	φ Z,100,401	100,011	_,

K. Property Tax Calendar

Property taxes are collected and remitted to the City by the County Treasurer. Taxes levied annually on November 1st are due one-half by December 20th and one-half on May 10th. Major property tax payments are received January through July and are recognized as revenue in the year received.

L. Inventories and Prepaid Expenses

Inventories and prepaid expenses which benefit future periods are recorded as an expenditure during the year of purchase as required by state statutes.

M. Special Assessments

Projects financed in part by special assessments are financed through general obligation bonds of the City and are retired from the Bond and Interest Fund. Special assessments paid prior to the issuance of bonds are recorded as revenue in the appropriate project. Special assessments received after the issuance of bonds are recorded as revenue in the Bond and Interest Fund.

N. Compensated Absences

The City's policies regarding vacation time permit employees with up to ten years of service two weeks of vacation per year and those employees with more than ten years of service three weeks of vacation per year. Vacation pay is non-cumulative. Employees are permitted one day of sick leave per month. Sick leave is cumulative up to ninety total days. Both vacation and sick leave lapse upon termination of employment.

O. Defined Benefit Pension Plan

<u>Plan Description</u> - The City participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et seq. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to KPERS (611 South Kansas Avenue, Suite 100; Topeka, KS 66603-3803) or by calling 1-888-275-5737.

Notes to Financial Statements December 31, 2007

O. Defined Benefit Pension Plan (cont.)

Funding Policy - K.S.A. 74-4919 establishes the KPERS member-employee contribution rate at 4% of covered salary. The employer collects and remits member-employee contributions according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rate be determined annually based on the results of an annual actuarial valuation. KPERS is funded on an actuarial reserve basis. State law sets a limitation on annual increases in the contribution rates for KPERS employers. The employer rate established by statute for calendar year 2007 is 5.31%. The City employer contributions to KPERS for the years ending December 31, 2007, 2006 and 2005 were \$9,767, \$8,514, and \$8,230, respectively, equal to the statutory required contributions for each year.

P. Other Post Employment Benefits

As provided by K.S.A. 12-5040, the City allows retirees to participate in the group health insurance plan. While each retiree pays the full amount of the applicable premium, conceptually, the City is subsidizing the retirees because each participant is charged a level of premium regardless of age. However, the cost of this subsidy has not been quantified in these financial statements.

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the City makes health care benefits available to eligible former employees and eligible dependents. Certain requirements are outlined by the City for this coverage. The premium is paid in full by the insured. There is no cost to the City under this program

2. Long Term Debt

The City has the following types of Long Term Debt:

Lease Obligations

The lease for the JCB Wheel Loader ended on May 15, 2007. No new leases have been entered into by the City to date.

Revolving Loan

The City entered into a \$1,150,000 revolving loan agreement on November 18, 2004 with the Kansas Department of Health and Environment acting on behalf of the State of Kansas to finance Public Water Supply System Project #2416. As of December 31, 2007, the City had issued \$1,101,803 of the total loan amount.

Changes in long-term liabilities for the City at December 31, 2007 and current maturities of long-term debt and interest for the next five years and in five year increments through maturity are included on the next two pages.

Notes to Financial Statements
December 31, 2007

3. Transfers and Payments

Transfers and payments within the reporting entity are substantially for the purpose of subsidizing operating functions, funding capital projects and asset acquisitions, or maintaining debt service on a routine basis as authorized by Kansas Statutes. The City's operating transfers and statutory authority for December 31, 2007 were as follows:

Erom	То	Authority	Amount	
From General General General Bond and Interest Water Utility	Equipment Reserve Capital Improvements Airport Improvements General Fund Water Improvement Project	K.S.A. 12-1,117 K.S.A. 12-1,118 K.S.A. 12-1,117 K.S.A. 79-2958 K.S.A. 12-825d	\$ 	35,500 60,000 21,100 409 25,514 142,523
Bond and Interest	General Fund			\$ <u></u>

4. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements on a prescribed basis of accounting that demonstrates compliance with the statutory basis and budget laws of the State of Kansas requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

5. Risk Management-Claims and Judgments

The City is exposed to various risks of loss related to torts; theft of; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has been able to obtain errors and omissions insurance at a cost it considered to be economically justifiable.

The City carries commercial insurance for all other risks of loss, including property, general liability, inland marine, crime, vehicle, and fidelity bond coverage.

Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three calendar years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. At December 31, 2007, the financial statements do not include liabilities for anticipated costs.

6. Litigation

The City is party to various legal proceedings such as foreclosure actions and tax appeals, which normally occur in governmental operations. The legal proceedings are not likely to have a material adverse impact on the funds of the City.

7. Grants and Shared Revenues

The City participates in numerous state and federal grant programs, which are governed by various rules and regulations for the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required. In the opinion of the City, any liability for reimbursement, which may arise as the result of the audits, is not believed to be material.

Notes to Financial Statements
December 31, 2007

8. Comparative Data

Comparative data for the prior year has been presented in Statement 3 of the accompanying financial statements in order to provide an understanding of changes in the City's cash and unencumbered cash balances. However, complete comparative data (i.e., presentation of prior year totals in Statement 1) has not been presented since their inclusion would make the statement unduly complex and difficult to read.
